

## GREENCLEAN Automobile

**Product description:** BACOBAN GC is a bioactive, water-soluble Cleaning Agent, that solubilises staining generated by fats and oils and thus ensures their complete biodegradation. BACOBAN GC includes innovative surfactants which possess enormous cleaning power. Moreover, BACOBAN GC is neither water-polluting nor harmful to animals and plants, does not harm any organisms, non-corrosive to paints, plastics or other materials, skin friendly, totally biodegrades within a few days and is non-toxic for the environment, humans and animals, contains ingredients from controlled ecological farming.

**Field of application:** Ideal for cleaning cars, caravans, boats, motors, etc.

**Product features:** Degrease components, clean motors and engines. BACOBAN GC is ideal for degreasing tasks in the automobile industry. It removes most kinds of fats and oils be they synthetic, mineral, animal or vegetable. Significantly BACOBAN GC neutralizes unpleasant odors, such as smells from diesel or fuel oil. BACOBAN GC may be drained into the public sewage system. Small parts and complex items can be cleaned with BACOBAN GC in any receptacle.

### Product data:

**Color:** Yellowish liquid

**Delivery form:** 4 bottles of 1 gallon

**Shelf life:** 2 years

### Technical data:

**Density:**

**Consumption:**

### Processing:

**Application:** Make sure the surface to be cleaned is cooled to room temperature. Spray the surface to be cleaned with Bacoban GreenClean. Leave to act for a few moments. Clean with a sponge or brush as needed. Rinse with water or simply wipe off. Renew the application if necessary.
